Company Profile & Capabilities Statement

About Coolgear

For over **20 years**, **Coolgear Inc.** has been a leading manufacturer of top of the line industrial-grade **USB hubs, chargers, serial devices, adapters, and cables.** Based in the US, Coolgear has successfully engineered and **deployed millions of connectivity solutions** into industrial, medical, automotive, commercial, and aerospace industries. Our **on-site engineers and support staff** offer guidance through solution identification, off the shelf or custom-designed recommendations, and smooth integrations with continued support from our team.

Project Process

Assisting each customer by efficiently understanding their needs, providing highly reliable connectivity solutions, and executing a smooth integration all while keeping costs down and uptime to a maximum.

Core Competencies

- Solution Identification
- Integrations
- Product Customization
- Product Development
- Production Forecasting
- Quality Control
- Continued Support

Capabilities

- System Engineering and Integration
- Mechanical Design
- Prototyping
- Production
- 3D CAD & Mechanical Drawings
- Assembly
- Firmware
- Embedded Programming
- Electrical Engineering
- Consulting Services

Solutions

- USB Hubs
- USB Chargers
- Adapters
- Serial Devices
- Power Over Ethernet
- Power Delivery (PD) Devices

Facilities

USA: Locally Stocked Inventory, Distribution, Prototyping, Assembly, and Product Support

Production facilities:

China: High-Volume Production

Taiwan: Small/Medium Production TAA Compliance

Available Resources

- Internal Staff of Engineers & Technicians
- On-Site Testing Equipment
- In-House R&D Department
- Technical Support

Customers
